About the academy

In 2027 the Year 9 and Year 10 Football Academies become PE classes. Each Academy class replaces the student's regular PE & Health class, and the key parts of the PE & Health curriculum are still delivered.

Everything that makes the academy successful stays the same, including our alliance with professional coaches in delivering the programme.

Why this model works

- Students get their football development during school hours
- WBHS PE staff can now be allocated to help deliver the programme
- Professional coaches continue to lead the football content
- Students still complete the vital components of the PE & Health curriculum

Trial Dates:

Trials will be held on Friday 20th November and Thursday 26th November 2026.
